:30 Public Service Announcement

## Handwatering

When Florida's water management districts limit landscape watering, you can typically only water one or two days per week.

Handwatering is usually allowed more frequently than automatic irrigation. Handwatering means using a watering can, pail, or hose to irrigate plants, and it's a good technique for container gardens, shrubs, trees, vegetables, and flower beds.

Check for restrictions on handwatering in your area.

This public service announcement is brought to you by Gardening in a Minute. For more information about water conservation, visit Gardening in a Minute dot com or contact your University of Florida/IFAS county Extension office.

---

The Conserving Water: Solutions for Your Landscape campaign was developed by the Center for Landscape Conservation and Ecology.

Special thanks goes to Dr. Michael Dukes, Dr. Laurie Trenholm, Dr. Sydney Park Brown, St. Johns River Water Management District, Southwest Florida Water Management District, and South Florida Water Management District.
